Stepping into the Future

PILGRIM PLACE
2019 ANNUAL REPORT
“Fostering a vibrant and inclusive senior community committed to justice, peace and care of the Earth.”
FROM RONALD BOLDING, CEO

Stepping into the future means many things to Pilgrim Place and to me. After serving over 30 years providing leadership to senior health insurance organizations, I was available in February 2019 to give support as Pilgrim Place initiated its search for a new CEO. I have known of and worked with PP for many years and was intrigued by the idea of working with the board and residents to further the mission of sustaining an intentional community offering senior living and care. Its commitment to peace, social justice, sustainable earth, to its employees and neighbors are all invigorating and motivating qualities. We are determined to step into the future together; working to make an innovative, socially responsible environment for residents, employees and neighbors. There is much to be done, but infinite joy in the doing.
Pilgrim Place Participates in the Opening Ceremony at the National Leading Age Conference in San Diego

Pilgrim Place was honored to participate in the grand opening of the National Leading Age Conference in San Diego last fall. Working with the “Afterschool” A Cappella Choir at the Claremont Colleges, they formed an intergenerational choir. A video of their performance can be found on our website at www.pilgrimplace.org - click into box on the bottom left. Part of the video was taped at the Claremont Colleges, finishing “live” on stage in front of an audience of more than 5,000 people. Singing the Beatles song, With a Little Help from my Friend, no one appeared to be shy in front of the camera or on stage!

High Speed Wi-Fi

With the completion of our upgraded campus Wi-Fi, Pilgrim Place has stepped into the future to become our own Internet Service Provider (ISP) with robust and secure internet connections. We no longer rely upon the changing contracts and increased costs of commercial ISP’s such as Spectrum and Frontier. We dug trenches over the entirety of our 32-acre campus to place the fiber optic cable underground.

Our installers spent 15,000 hours on site examining our needs, connecting the wireless infrastructure and testing Wi-Fi strength from every corner of the campus. Each Independent Home now has an access point and all public spaces were configured with commercial grade gateways and repeaters. On average, residents can expect 200 megabits per second.

We are one of the few stand-alone senior communities in California to make this progress. Residents can now expect reliable Wi-Fi service for all of their electronic devices and streaming activities and people moving into the community can eliminate the need to contract for internet service! In addition, to support this new amenity, we have a full-time helpdesk technician.

LED Lighting Throughout the Campus

As part of the master plan for sustainability (solar panels, landscaping water reduction and electric cost reduction) all public spaces at Pilgrim Place use LED lighting. We installed over 2,600 lights in the Health Services Center, Pitzer Lodge, Abernethy Dining Hall, the Petterson Museum, Pendleton Arts and Crafts Center, and the G. Worth George Residents’ Activity Center. Pilgrim Place has saved 40% on electrical costs by using LED lighting across the campus.

Pilgrim Place has saved 40% on electrical costs by using LED lighting across the campus.
Petterson Museum Renovation

The Petterson Museum is a joint venture between Pilgrim Place and the Friends of the Petterson Museum, a board consisting of Pilgrim Place residents and members from the larger community. It was opened in 1983 with the support of well-respected artists, Richard and Alice Petterson.

In 2019 the museum was transformed with a long-overdue renovation. While this undertaking was happening, the collection (of over 11,000 artifacts), was appraised and additional steps were taken for their protection. This huge effort was successful because of the team-work and skills of the Pilgrim Place Buildings and Grounds staff, the organizational skills of the Museum Specialist, Kaitlyn Bylard, and a huge amount of volunteer hours from the Friends of the Museum.

The Petterson Museum of Intercultural Art continues to offer four exhibits annually. It is open to the public every Friday, Saturday and Sunday. For more information you may go the Petterson Museum website at www.pettersonmuseum.org.

A Fresh Look for the Pilgrim Place Website

Pilgrim Place has had a global footprint throughout its history. Thus, as we reimagined our website, there seemed no better symbol to represent us than the world globe. This particular globe can be viewed outside our Administrative offices set inside the marble EarthPeace statue. It is made
from the metal of a decommissioned nuclear submarine and has “peace” written on it in many different languages. You’ll even notice the Pilgrim Place Mayflower logo located in southern California!

Visit the website at www.pilgrimplace.org; you can take a virtual video tour of the campus and look at the interiors of our unique homes. You can also learn about the benefits of living in a Continuing Care Retirement Community (CCRC).

Abernethy Dining Hall and the Carport Cafe

When the 10-year old carpet was removed in Abernethy at the beginning of 2019, it became apparent that part of the concrete floor was sinking due most likely to the high water table on our campus. What was to take three weeks turned into a project that lasted nine months! There were several options that Pilgrim Place could have taken, a quick fill now and worry about it later or do it right today so we wouldn’t have to burden the community years later. Under the guidance of CEO, Ronald Bolding, the decision was made to dig out the affected flooring areas and place pilings deep into the ground and fill the area with an expanding soil mixture that turns hard upon contact with water. While we were doing this work we updated the two entrance stairs leading into the dining hall and the doors between Abernethy and Decker Hall.

During this long process, the beloved noon meal gathering, was displaced. With an imaginative out-of-the-box idea, outdoor dining was recreated in the carports of the Norton Garden Building. Thus the “Carport Cafe” was created. This make-shift dining area allowed residents to continue to share the main meal of the day together and listen to the daily announcements as a community. Abernethy Dining Room reopened in October 2019, allowing us once again to break bread together.

Campus Refurbishment

Part of stepping into the future this year was the improvements of the grounds and buildings on campus. New street signs and gate signs were installed. New sidewalk lighting around Bradford Court and energy efficient overhead street lighting is now throughout campus. Our Skilled Nursing Center and Assisted Living, the Health Services Center and Pitzer Lodge, received new carpeting, tile and paint. A staff training room was created in the Administration building. Finally, a large home that had previously been a duplex, was returned to its original footprint to accommodate resident preferences for smaller living spaces.

11
2019 was a year of progress for Pilgrim Place. The Data/Wi-Fi project that began in 2018 was substantially complete and resulted in Pilgrim Place becoming a campus-wide, reliable, high-speed ISP (Internet Service Provider) for our residents, our second six-bed memory care home broke ground on its construction and once completed will become known as Rauch Memory Care at Pilgrim Place, and we completed a total foundation renovation of our main dining hall, Abernethy, as we experienced some sinking due to the original site being swampland. The foundation is now supported by eight, 20-foot helical piers, and a special soil injection that hardens when in contact with water. As of December 31, 2019, $1.7M worth of bond proceeds remain available for construction. The majority of which will be used to completed our second memory care home.

In addition to strategic infrastructure improvements afforded to us by the bonds, our plan to simultaneously increase our operating reserves and thus our financial sustainability continues. Our Operating Reserve Ratio (Days Cash on Hand) is used to measure organizational security and liquidity. It is indicative of how long an entity can continue its operations without any revenue coming in to fund the operations. For the years ended December 31, 2019 and 2019, Days Cash on Hand was 241 days and 225 days, respectively.

Overall, unrestricted net assets increased $541k. Operating income was $1.9M, other income contributed $1.1M, and net assets (net income) increased $2.2M. Net cash from operations was $3.5M. Revenue was generated primarily from rents and fees (84% in 2019).

Gifts, donations, and endowment income continue to play an essential role to Pilgrim Place’s overall financial health and allows us to utilize the benevolence of residents, friends, churches and organizations toward providing the highest quality care and services to our residents.

The value of our Gift Annuity Portfolio at the end of 2019 was approximately $726k. Pilgrim Place recognizes contributions from supporters through estate planning and direct gifts that benefit the endowment through a variety of campaigns overseen by its Advancement Office. Many have included Pilgrim Place in their wills.

The Pilgrim Place endowment recognized gains of 23.5%, or $2.4M in 2019. The support provided to the Residents Health and Support Program (RHSP) was $734k. As of December 31, 2019 the total market value of the endowment was $12.5M.
CAPITAL IMPROVEMENTS

TOTAL: $3.5M

During 2019 Pilgrim Place continued its commitment to maintain and upgrade houses, facilities, and grounds. An investment of $3.5M went to capital improvements on campus, such as house preps and renovations, Data/Wi-Fi, HSC and Assisted Living remodeling, Memory Care construction and repair of other central facilities.

*The financial summary is based on audited records. The independent audit report by Clifton Larson Allen, LLP, Certified Public Accountants, will be available for examination upon request.*
